

**REMARKS/ARGUMENTS**

Entry of this Amendment After Allowance Under 37 C.F.R. § 1.312 is respectfully requested since it does not add any new matter. More specifically, the amendments to the specification and Claims 1 and 11 corrects a typographical error in the formula. Because  $r_1$  is a negative/minus value,  $r_2$  is a positive/plus value and  $r_3$  is infinite, it would be obvious for one skilled in the related technology area that the formula would be  $1.25 < h_1 - 4/h_1 - 1 < 1.55$ . The typographical error in the specification and Claims 1, and 11 was discovered by the applicants' attorney during a post-allowance review of the claims, and the attorney has been diligent in correcting any informalities that he has become aware of.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,  
MAIER & NEUSTADT, P.C.
